BUSINESS AND SUCCESS COACH

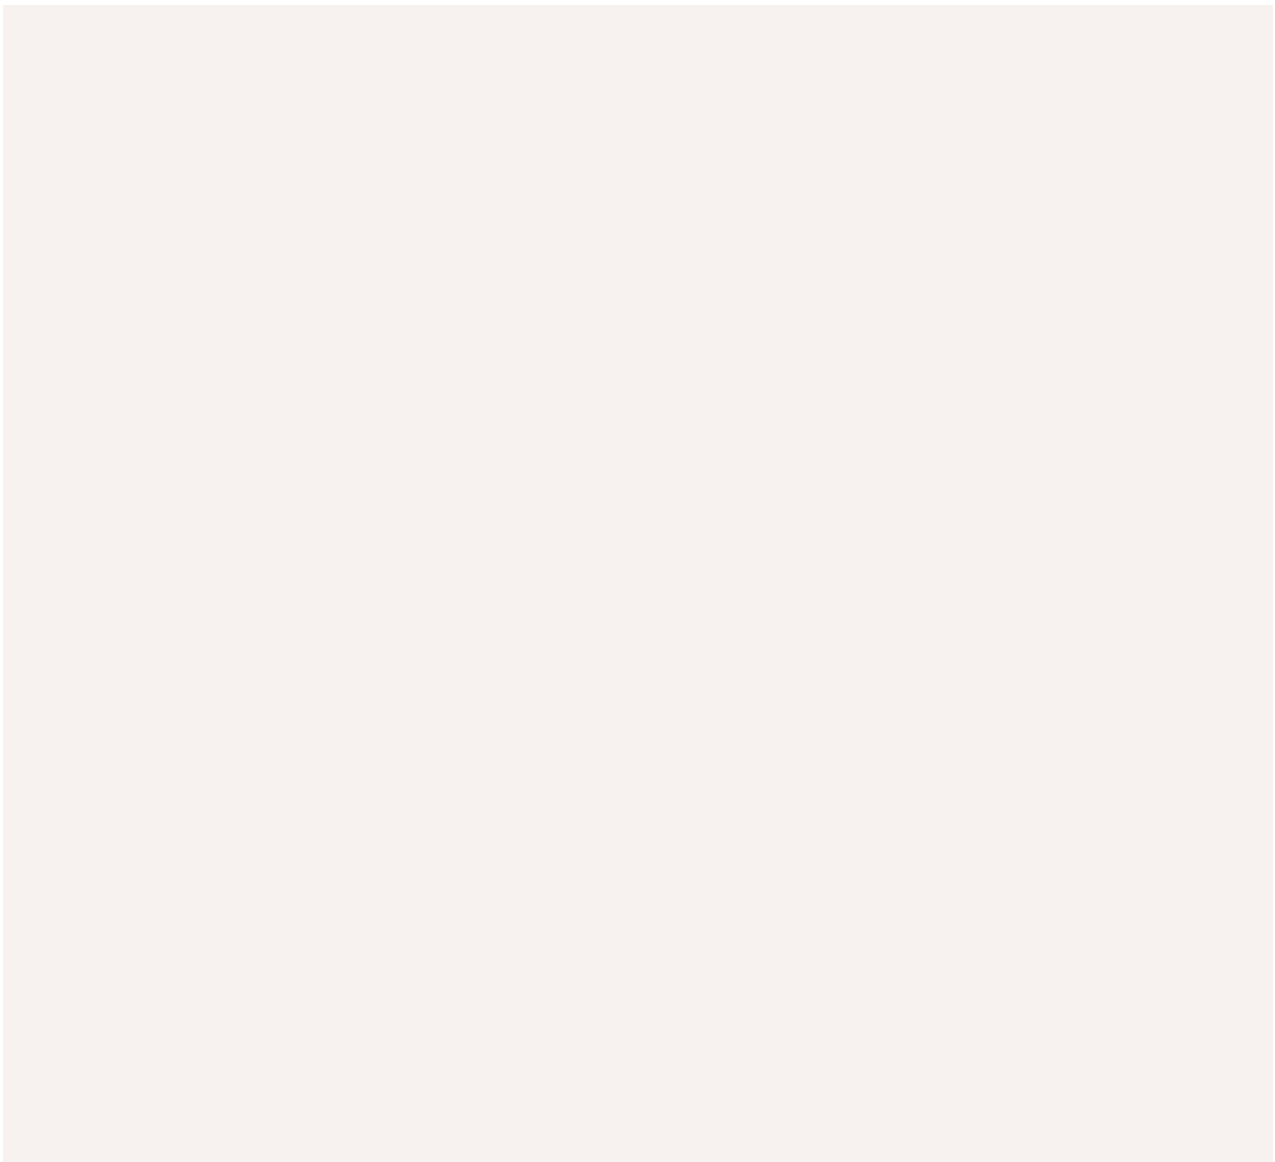

Your Big Vision

In order to get really clear on your goals for the next 90 days, you need to start with the bigger picture in mind. This ensures that what you do today is truly aligned with your long-term vision.

So I want you to take a moment to think about how you REALLY want your life and business to look 3 years from now. Leave behind your fears and worries whilst you do this exercise and don't worry if you don't know how you could possibly make it happen, just imagine what you would love to create if anything were possible.

TASK 1

Once you've got clear on your vision, fast-forward 3 years and imagine you're writing a letter to a friend explaining what your life and business looks like now. How amazing does it feel? What does it look like? What do you see? How much have you grown? What are you grateful for? What needed to happen to get you to this place etc?

Your 12-Month Vision

TASK 2

Now that you've got clarity around your 3 year vision, it's time to work backwards and look at what would need to happen within the first year in order to be on track to making it a reality. Where do you need to be in 12 months from now? Whilst this is a business planner, remember life is holistic and each area supports one-another, so have a think about all the other areas of your life as well so that you can get clear on what you need to work on alongside your business goals. Just get it all down on paper and have fun with it!

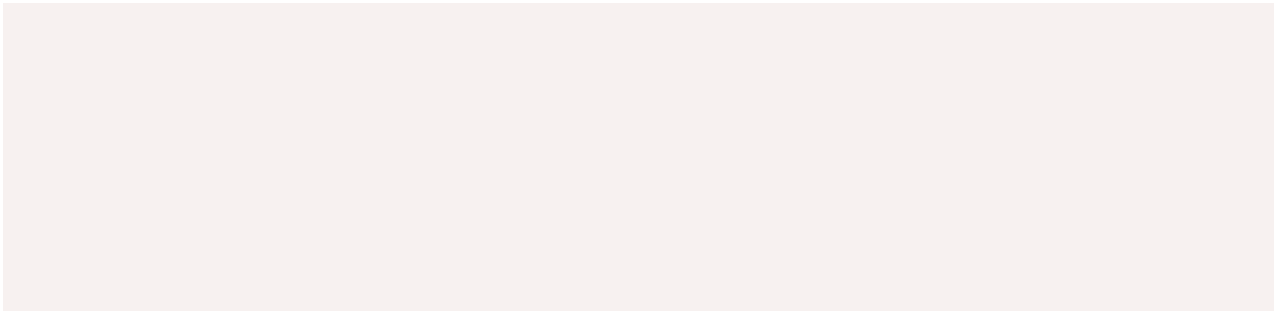

Your 90-Day Goals

TASK 3

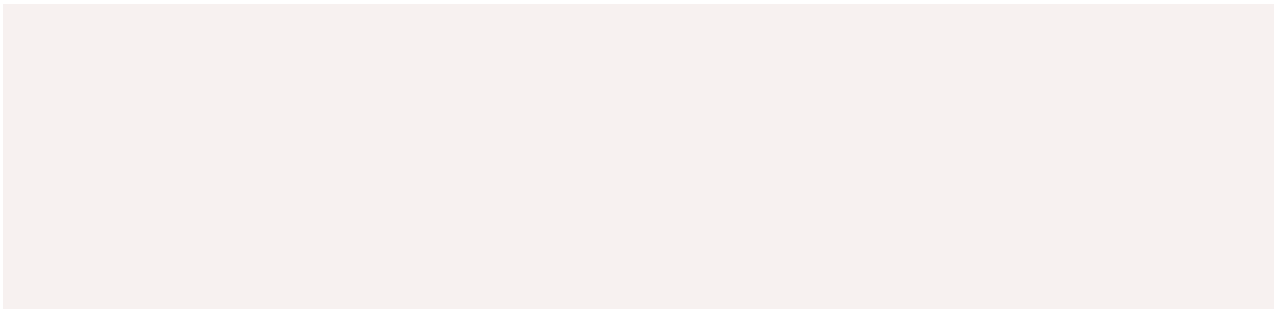

Using your above 12-month vision as a guide, think about the next 90 days, what would you love to have achieved by the end of it? What are the top 3 goals, that will enable you to move the needle forward the most and if you can achieve these, so many other things will start to fall into place also?

Make sure that these goals challenge you to stretch your comfort zone and grow, but make sure that they aren't overwhelming as you'll be far more likely to procrastinate or get stuck.

ACTION-PLAN

TASK 4

Now that you know what you want to achieve in the next 90-days, it's time to create a plan of action to make it happen!

Write down all of the KEY action steps/milestones for each of your top 3 goals. These aren't all the tiny, specific action steps but more the 'Mini-goals' that need to happen along the way.
